

Playdesa
PLÁSTICOS Y DESARROLLOS, S.A.

specialist in
**FLEXIBLE PLASTIC
PACKING**

PLAYDESA GROUP

This group was established in Galicia (Spain) in 1978 and it is one of the oldest packaging companies in our country. We are experts in the transformation of polyethylene.

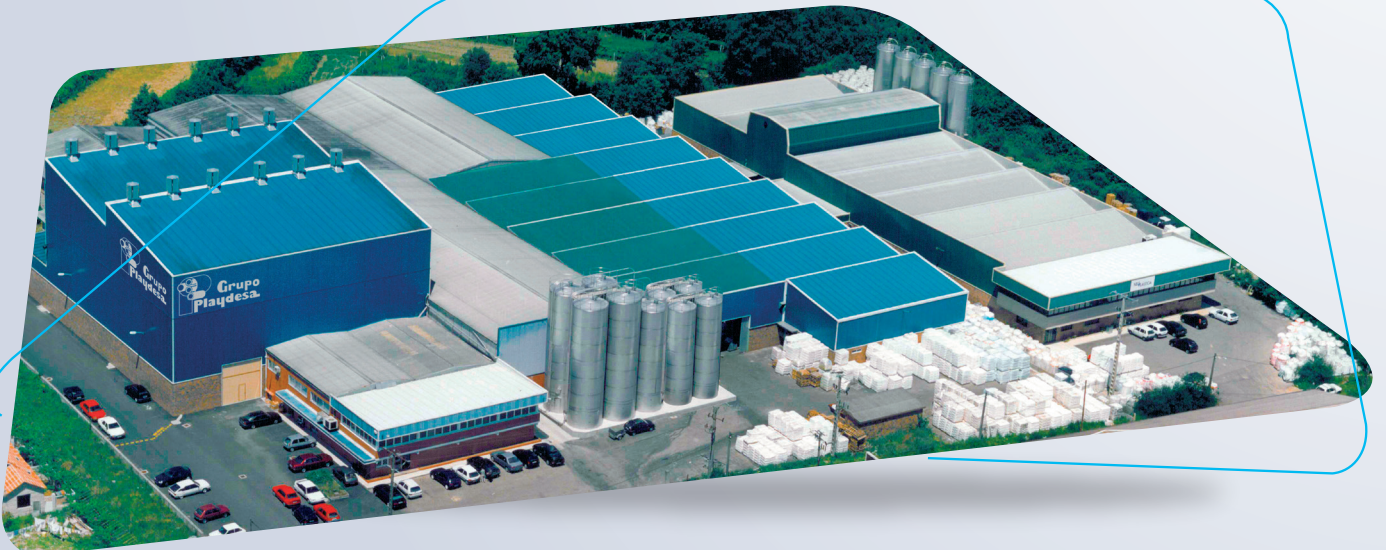

Currently, we have a facility with over 10.000 square meters in our main headquarters. It is located in O Cerquido, which is easily reachable from the Vigo airport via the Porriño – Tui motorway (Pontevedra). We also have another facility with 1.200 square meters in Multiva (Pamplona). We have approximately 100 employees and our production capacity is more than 20.000 tons annually.

Working with confidence, we face the present and future challenges in the sector. We are continuously improving and developing; all our facilities are technically equipped to deal with the needs of a diversified market that demands flexibility, adaptation and response capacity.

For that reason, every year Playdesa gets involved in investing in technology and training, incorporating new production lines, facilities, and developing new products in order to provide solutions adapted to every client to achieve ultimate satisfaction.

OBJECTIVES AND STRATEGIES:

- 1° Knowledge of products and processes, thanks to our vast experience.
- 2° A strong investment that allows us to keep at the cutting edge of technology.
- 3° Training and adaptation to the continuous changes to our organization.

PROCESSES

WE CARRY OUT THE ENTIRE PRODUCTION
PROCESS FROM THE BEGINNING TO THE END

1 EXTRUSION

We have the newest in multilayer extrusion that allows us to make the product with a huge variety of widths as the client requires.

2 PRINTING

We have four flexographic machines which allow us to work with up to eight colors.

3 LAMINATION

In this area we can make the product up to three layers typically using metalized Ppcast /OPP/PA/AL/PET with a PE base.

4 CONVERTING

This section is completed with the rest mentioned and giving the wide range of machines at our disposal, we cover bottom, side and triple seal.

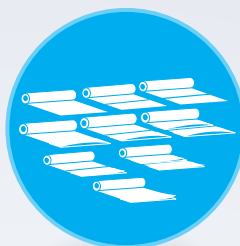

PRODUCTS

WE CAN EXTRUDE BOTH TRANSPARENT, AND IN VARIOUS COLORS

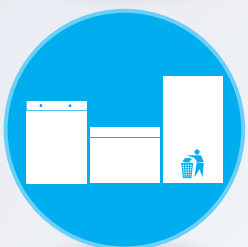

SACKS, SILAGE SACKS

Sacks, Silage sacks and films. Covers for palets printed up to 3 colors on both sides. In addition, they can be perforated in rolls.

TUBE, SHEET

Tube, semi tube and sheet, perforated or loose. Garment covers. Shrink film and flow pack film, printed up to 8 colors.

BAGS, BAGS WITH HANDLE

Bags, bags with handles, bags in block. Bin liners in rolls. Printed or unprinted.

LAMINATED FILMS

Laminated films up to 3 layers. Printed up to 8 colors.

QUALITY

Our main objective is quality; we offer the maximum reliability to our customers. We address both the primary and the secondary sector as well as a slight presence in the tertiary sector (service sector).

In Playdesa we carry out all the phases of production in order to get a high quality product at the end, starting with a strict control of the raw material used at all levels: polymer, inks, dyes and another inputs.

Using the most modern techniques we maintain strict control of the entire process to achieve the final product.

ENVIROMENT

We have all the necessary means to reuse all the recycled material. Our products are 100% recyclable.

There exists no danger to the environment because we do not use heavy metals or other dangerous elements. In addition, our products are suitable for the food industry.
